TSXV: **AGMR** | OTCQB: **AGMRF** | BVL: **AGMR**

Disclaimer

IMPORTANT – YOU MUST READ THE FOLLOWING BEFORE CONTINUING:

The information contained in this document has been prepared by Silver Mountain Resources Inc. (the “Company” or “AGMR”) and contains confidential information pertaining to the business, operations and assets of the Company. The information contained in this document (a) is provided as at the date hereof and is subject to change without notice, (b) does not purport to contain all the information that may be necessary or desirable to fully and accurately evaluate an investment in the Company, and (c) is not to be considered as a recommendation by the Company that any person make an investment in the Company. An investment in the securities described herein is speculative and involves a number of risks that should be considered by a prospective investor. This document is confidential and is being provided to you solely for your information and may not be reproduced, in whole or in part, in any form or forwarded or further distributed to any other person. Any forwarding, distribution or reproduction of this document in whole or in part is unauthorized. This presentation is not, and under no circumstances is to be construed as, a prospectus, or advertisement or a public offering of securities of the Company. Prospective investors should not assume that this document is complete and should conduct their own analysis and investigation of the Company and consult with their own financial, legal, tax and other business advisors, having regard to their own particular circumstances, before investing in the Company. By accepting and reviewing this document, you acknowledge and agree to not utilize any of the information contained herein except to assist with your evaluation of the Company. This document may have been sent to you in an electronic form. You are reminded that documents transmitted via this medium may be altered or changed during the process of electronic transmission. You are responsible for protecting against viruses and other destructive items. Your receipt of this electronic transmission is at your own risk and it is your responsibility to take precautions to ensure that it is free from viruses and other items of a destructive nature. As a consequence of the above, neither the Company nor any director, officer, employee or agent of any of them or any affiliate of any such person accepts any liability or responsibility whatsoever in respect of any difference between the document distributed to you in electronic format and the hard copy version that may be made available to you. The information presented herein was prepared or obtained by the Company. Nothing contained herein is, or should be relied on as, a promise or representation as to the future performance of the Company.

In making an investment decision, investors must rely on their own examination of the Company and the terms of any investment, including the merits and risks involved. The securities of the Company have not been approved or disapproved by any securities commission, exchange or similar regulatory authority in Canada or elsewhere, nor have any of the foregoing authorities reviewed or in any way passed upon the merits, accuracy or adequacy of this presentation. Any representation to the contrary is an offence.

In this presentation, all amounts are in Canadian dollars, unless otherwise indicated. Unless otherwise indicated or the context otherwise requires, all references in this presentation to “AGMR”, the “Company,” “we,” “our,” “ours,” “us” or similar terms refer to Silver Mountain Resources Inc., together with its subsidiaries.

TECHNICAL INFORMATION: This presentation has been prepared in accordance with the requirements of the securities laws in effect in Canada, which differ from the requirements of U.S. securities laws. Unless otherwise indicated, all exploration results and resource and reserve estimates included in this presentation have been prepared in accordance with National Instrument 43-101 Standards of Disclosure for Mineral Projects (“NI 43-101”). The definitions used in NI 43-101 are incorporated by reference from the Canadian Institute of Mining, Metallurgy, and Petroleum (“CIM”) - Definition Standards adopted by CIM Council on May 10, 2014 (the “CIM Definition Standards”).

This technical content of this presentation has been reviewed and approved by Antonio Cruz, a “Qualified Person” within the meaning of NI 43-101. All technical information related to the Reliquias Mine Project is based on the report entitled “NI 43-101 Technical Report Mineral Resources Estimate for the Reliquias Mine, Huancavelica-Peru” effective March 18, 2023 and prepared by Antonio Cruz and Gerardo Acuña which is available under the Company’s profile on SEDAR+ at www.sedarplus.ca (filing date – May 15, 2023) and on the Company’s website at www.agmr.ca.

HISTORICAL RESOURCE ESTIMATES: This presentation includes a historical resource estimate in respect of (1) the Company’s Caudalosa Mine as set out in the Company’s technical report entitled “National Instrument 43-101 Technical Report - Castorvirreyra Project, Peru” dated October 6, 2021 and amended November 18, 2021 with an effective date of August 17, 2021 (the “Caudalosa Technical Report”) and available under the Company’s profile on SEDAR+ at www.sedarplus.ca; (i) historical resource estimates have been classified in accordance with the CIM Definition Standards; (ii) historical resource estimates are not Mineral Reserves or Mineral Resources and do not have demonstrated economic viability. All figures are rounded to reflect the relative accuracy of the estimates; (iii) Information is as of July, 2019 Source: Sociedad Minera Reliquias SA, the information is based on RM-Master Pro Quality, C. Rodriguez, Abr19; RM-Master Pro Quality, C. Rodriguez, Jul19; (iv) the author of the Caudalosa Technical Report considers that the historical resource estimates are relevant for the proper understanding of the Caudalosa Mine and additional exploration, including drilling, could be needed to verify the historical estimate as current Mineral Resources; (v) a Qualified Person has not completed sufficient work to classify this historical estimate as current Mineral Resources or Mineral Reserves; and (vi) the Company is not treating the historical estimate as current Mineral Resources or Mineral Reserves; and (2) the Company’s El Milagro Project as set out in the Company’s technical report entitled “National Instrument 43-101 Technical Report for El Milagro Project, Huancavelica and Ayacucho Regions, Peru” dated and effective October 17, 2022 (the “El Milagro Technical Report”) and available under the Company’s profile on SEDAR+ at www.sedarplus.ca; (i) the resource estimate was prepared by ROWAN in December 2009; (ii) it has not been possible to corroborate the economic and estimation parameters used in the estimation of resources; (iii) historical resource estimate was classified according to the CIM Definition Standards; (iv) the authors of the El Milagro Technical Report consider that the historical resource estimate is relevant for the proper understanding of El Milagro and additional exploration work (mineralization interpretation, diamond drilling, etc.) could be needed to verify the historical estimate as current Mineral Resources or Mineral Reserves; (v) a Qualified Person has not completed sufficient work to classify the historical estimate as current Mineral Resources or Mineral Reserves; (vi) historic mineral resources should not be considered current Mineral Resources or used for Mineral Reserve estimation.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING INFORMATION AND FORWARD-LOOKING STATEMENTS: Certain statements in this presentation constitute forward-looking statements and forward looking information within the meaning of applicable Canadian and United States securities legislation (collectively herein referred to as “forward-looking statements”), which can often be identified by words such as “will”, “may”, “estimate”, “expect”, “plan”, “project”, “intend”, “anticipate” and other words indicating that the statements are forward-looking. Such forward-looking statements are expectations only and are subject to known and unknown risks, uncertainties and other important factors that could cause the actual results, performance or achievements of the Company or industry results to differ materially from any future results, performance or achievements implied by such forward-looking statements. Such risks and uncertainties include, among others, regulatory risks, risks in estimating mineral resources, changes in laws, resolutions and guidelines, market risks, concentration risks, operating history, competition, the risks associated with international and foreign operations (including civil unrest) and the other risks identified under the heading “Risk Factors” in the Company’s annual information form dated August 14, 2023 and additional public disclosure documents available on the Company’s profile on SEDAR+ at www.sedarplus.ca.

These factors should be considered carefully and readers are cautioned not to place undue reliance on such forward-looking statements. Forward-looking statements are necessarily based upon a number of estimates and assumptions that, while considered reasonable by management of the Company at this time, are inherently subject to significant business, economic and competitive risks, uncertainties and contingencies that could cause actual results to differ materially from those expressed or implied in such statements.

These risks, uncertainties and assumptions could adversely affect the outcome and financial effects of the plans and events described herein. In addition, even if the outcome and financial effects of the plans and events described herein are consistent with the forward-looking statements contained in this presentation, those results or developments may not be indicative of results or developments in subsequent periods. Although the Company has attempted to identify important risks and factors that could cause actual actions, events or results to differ materially from those described in forward-looking statements, there may be other factors and risks that cause actions, events or results not to be as anticipated, estimated or intended. Forward-looking information contained in this presentation is based on the Company’s current estimates, expectations and projections, which are based on the information available as of the date of this document. Prospective investors should not place undue reliance on any forward-looking statement contained in this presentation. Forward-looking statements contained in this document are made as of the date of this presentation and, except as required by applicable law, the Company assumes no obligation to update or revise them to reflect new events or circumstances. Historical statements contained in this document regarding past trends or activities should not be taken as a representation that such trends or activities will continue in the future. In this regard, certain financial information contained herein has been extracted from, or based upon, information available in the public domain and/or provided by the Company. No statement in this document is intended to be nor may be construed as a profit forecast.

An investment in the Company is speculative and involves substantial risk and is only suitable for investors that understand the potential consequences and are able to bear the risk of losing their entire investment. Investors should consider the above noted risks, in addition to many others, and consult with their own legal, tax and financial advisors with respect to all such risks before making an investment.

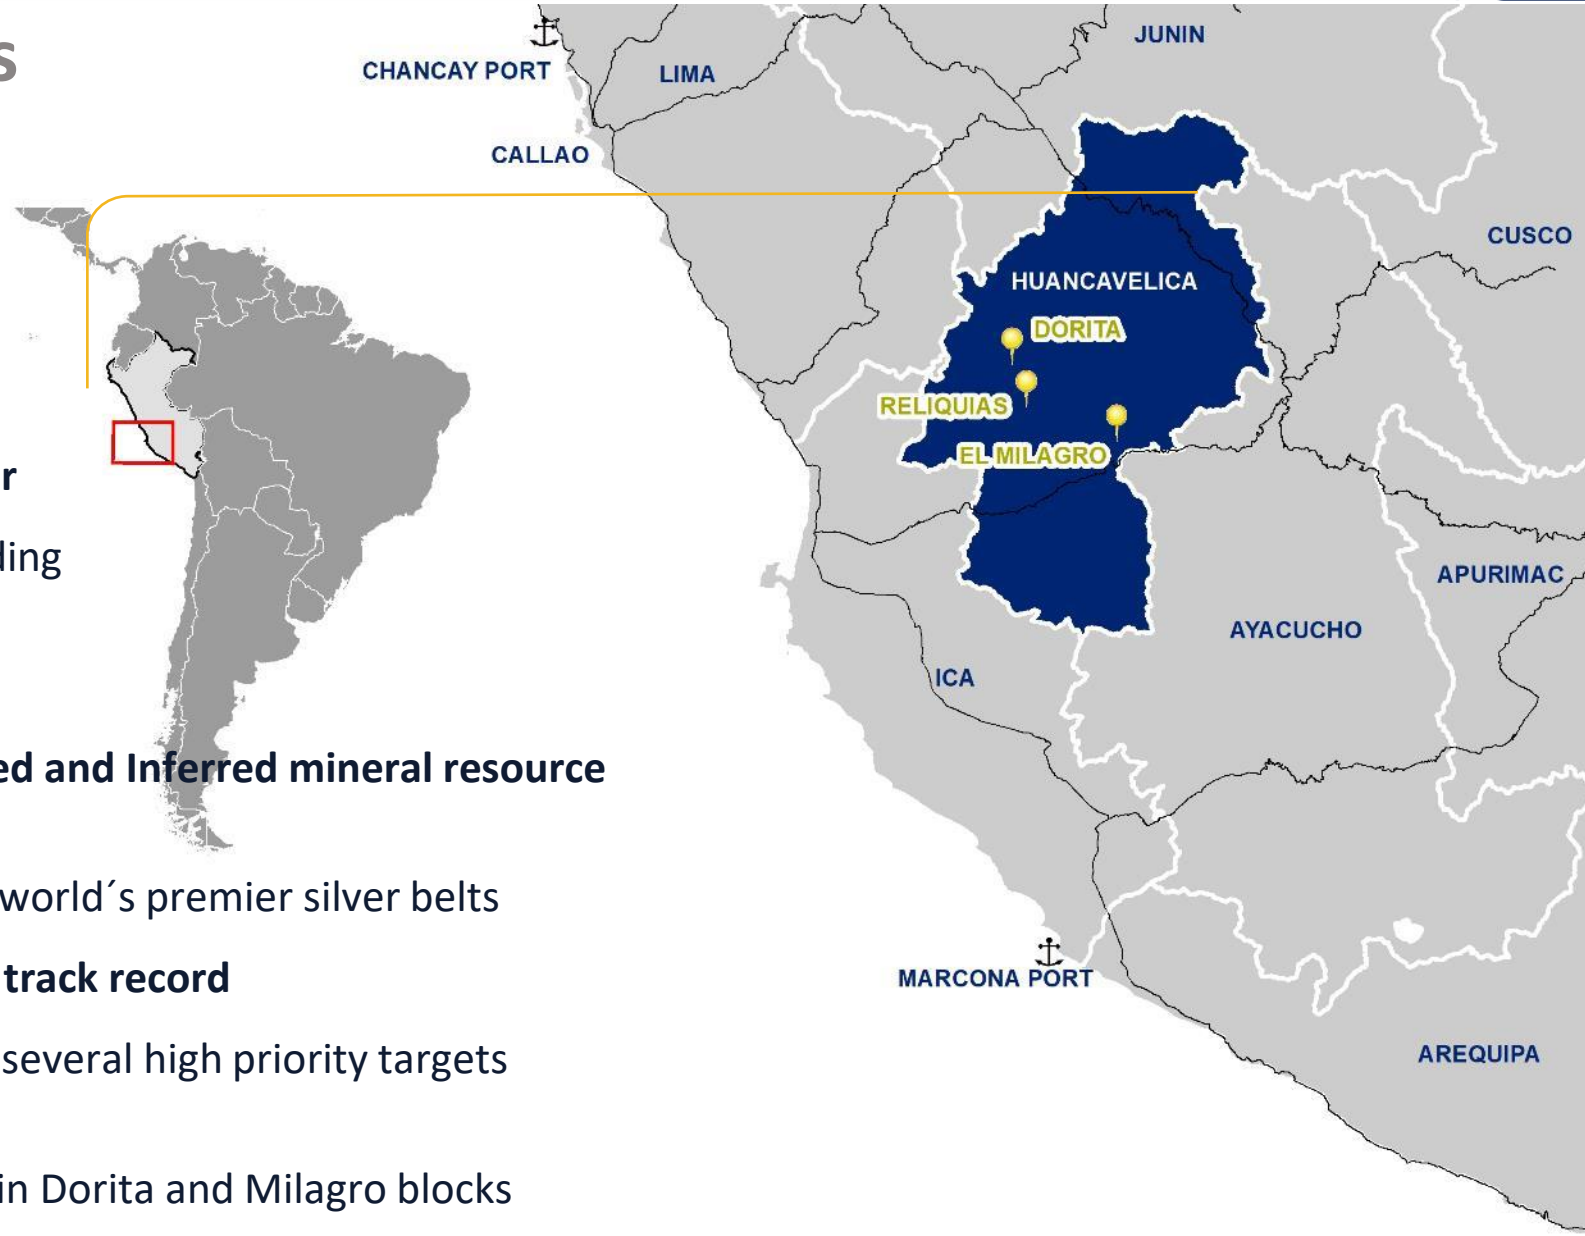

THIRD PARTY INFORMATION: This presentation includes market and industry data which was obtained from various publicly available sources and other sources believed by the Company to be true. Although the Company believes it to be reliable, the Company has not independently verified any of the data from third-party sources referred to in this presentation, or analyzed or verified the underlying reports relied upon or referred to by such sources, or ascertained the underlying assumptions relied upon by such sources. The Company does not make any representation as to the accuracy of such information.

TAXATION: Prospective investors should be aware that the purchase of securities of the Company or any entity related thereto may have tax consequences. The Company assumes no responsibility for the tax consequences of any investment. Each prospective investor is strongly encouraged to consult its own tax advisor concerning any purchase of securities of the Company or any entity related thereto.

CAUTIONARY NOTE TO UNITED STATES INVESTORS: This presentation does not constitute an offer to sell or the solicitation of an offer to buy, nor shall there be any sale of the securities of the Company in any jurisdiction in which such offer, solicitation or sale would be unlawful. The securities of the Company described herein have not been and will not be registered under the United States federal or state securities laws and may not be offered or sold in the United States, or to, or for the account or benefit of, “U.S. Persons” as such term is defined in Regulation S under the United States Securities Act of 1933, as amended (the “U.S. Securities Act”), unless an exemption from registration is available. Prospective investors will be required to represent, among other things, that they meet the definition of “accredited investor” (as defined in Rule 501(a) of Regulation D under the U.S. Securities Act) and are familiar with and understand the terms of the offering and have all requisite authority to make such investment. Any securities of the Company that are sold in the United States will be “restricted securities” within the meaning of Rule 144 under the U.S. Securities Act and may only be resold, pledged or otherwise transferred pursuant to an effective registration statement under the U.S. Securities Act or pursuant to an applicable exemption from the registration requirements of the U.S. Securities Act.

Who is AgMR? | Highlights

- **100% owned assets** (60k ha) in the historic mining district of Castrovirreyna in Peru
- **\$40 Million** spent to date
- **Well financed and debt-free silver developer**
- **Key infrastructure in place (>\$50MM)**, including 2,000tpd concentrator & tailings dam
- **Low Capex and low-cost project**
- **Multimillion ounce silver Measured, Indicated and Inferred mineral resource** in prolific mining belt
- **Scalable project** to take advantage of one of world's premier silver belts
- Management and board **with proven mining track record**
- Significant **exploration upside** potential with several high priority targets within 10 km of mine infrastructure
- **Highly prospective gold rich** satellite targets in Dorita and Milagro blocks

VIII EIGHT
CAPITAL

AgMR's Assets

Large land package in 3 blocks: Over 60,000 hectares 100% owned by AgMR: Reliquias, Dorita & EL Milagro blocks

Reliquias Block

Two neighbouring underground mines: **Reliquias & Caudalosa**

Several brownfield opportunities such as **Yahuarcocha**

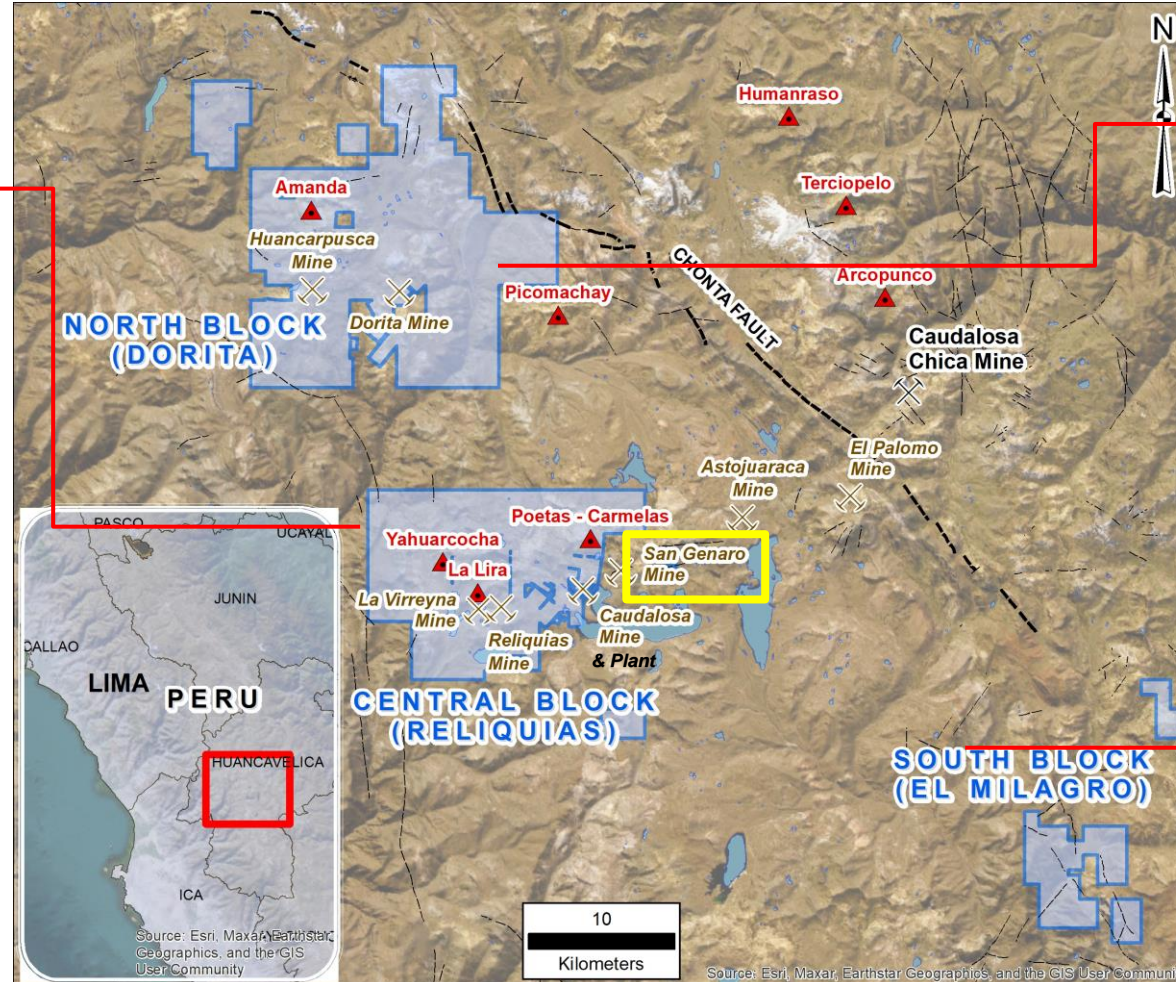

Poetas-Carmela intermediate sulphidation target with multiple geophysical anomalies and over 5km of advanced argillic alteration

Dorita Block

Multiple mineralized structures
DIA Approved

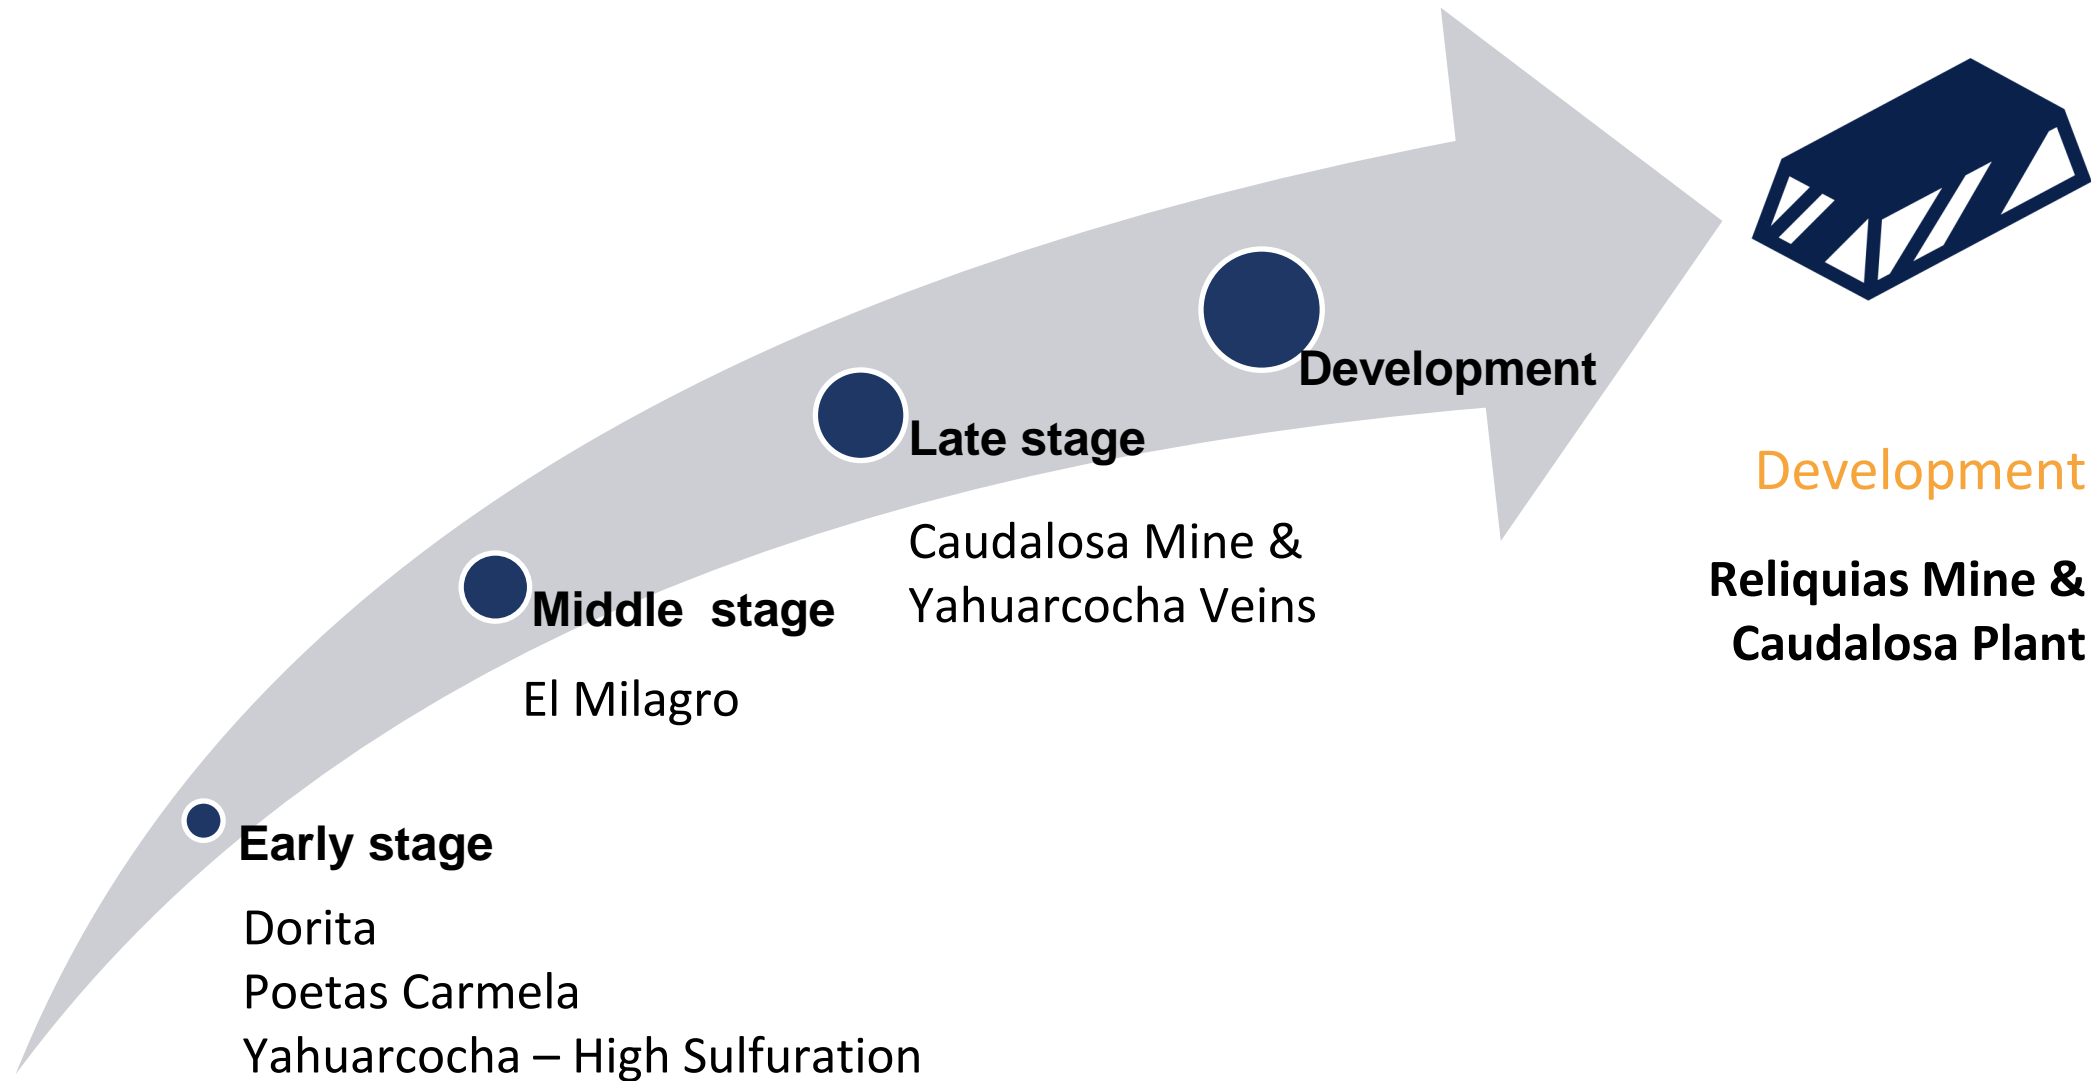

El Milagro block

Ag-Pb-Zn Carbonate replacement target with historical resource¹

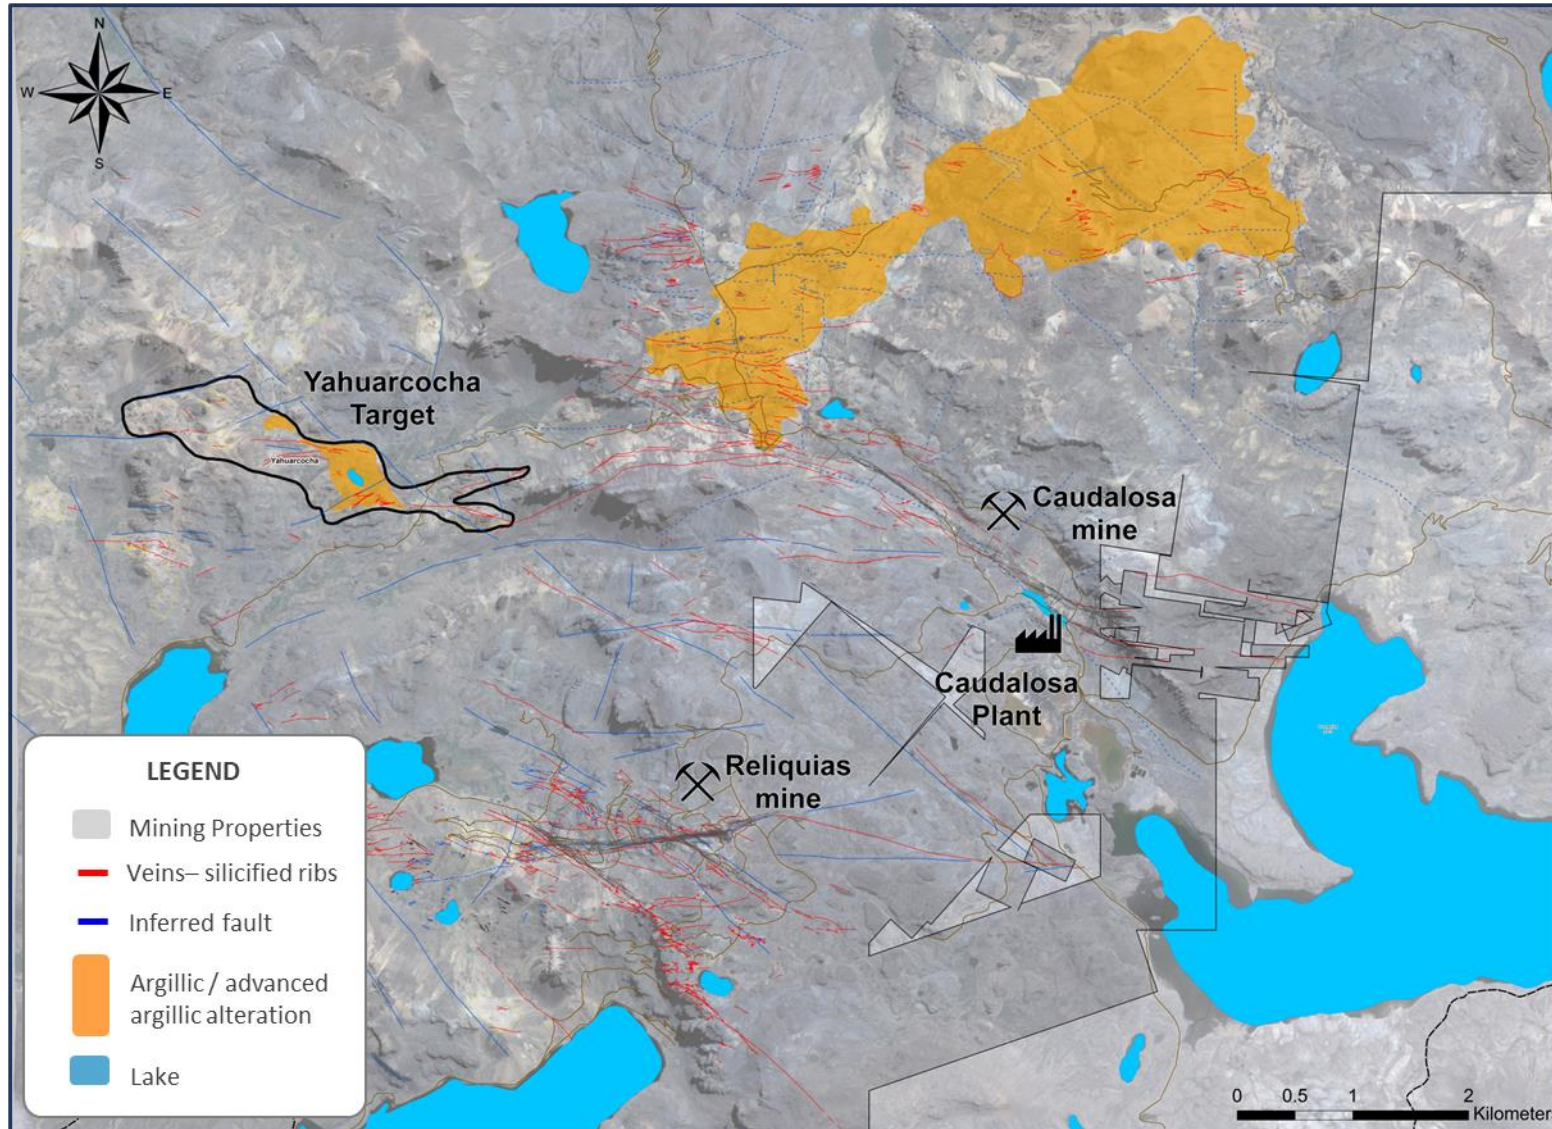

¹ Technical Report dated October 17, 2022 (<https://agmr.ca/silver-mountain-files-ni-43-101-technical-report-on-sedar-for-its-el-milagro-project/>)

AgMR's Assets

Reliquias Block | Two stage development “Stage 1”

Reliquias Mine

Caudalosa Plant

Stage 1: Restart production.
Reliquias mine resource expansion and process plant recommissioning.

Stage 1 | Reliquias Mine and Caudalosa Plant Facilities

Paved road access from Lima, major ports and commercial airport (Ayacucho)

More than **15 km of known veins** and **15 km of fully rehabilitated** underground tunnels

Existing **2,000 tpd throughput** processing plant

- **Tailings dam** capacity of approximately 750,000 m³
- **Mining camp** with dormitories, offices and ancillary facilities
- **Water use permits** in place
- **Connected to the national power grid** (\$0.057/KwH)

Stage 1 | Reliquias Mine and Caudalosa Plant – Restart Milestones

COMPLETED WORKS

- Mineral Resources Update NI 43-101 (Mar23 → 1.8MM tms)
- Phase 1& 2 Infill and mineral resource expansion drilling
- Geomechanical modelling and waste dump studies mine rehabilitation
- Metallurgical tested
- 20 years contract signed with Castrovirreyna Community Agreement

ONGOING WORKS - 2024

Studies and licenses

- Update Mineral Resources NI 43-101
- NI 43-101 PEA + Reliquias Mine
- Update operational permits
- Social license (Salcca Santa Ana in progress)

Mine & Plant

- Plant refurbishment
- Mine camp refurbishment
- Underground Mine development
- Plant commissioning
- Tailing dam commissioning
- Production start & Ram up

Define | Increase | Convert Mineral Resources

AGMR will incorporate a strict ESG strategy into every facet of the development process, being mindful of both the environment and our surrounding communities

Stage 1 | Current Mineral Resources Reliquias Mine –April 2023

To be updated soon

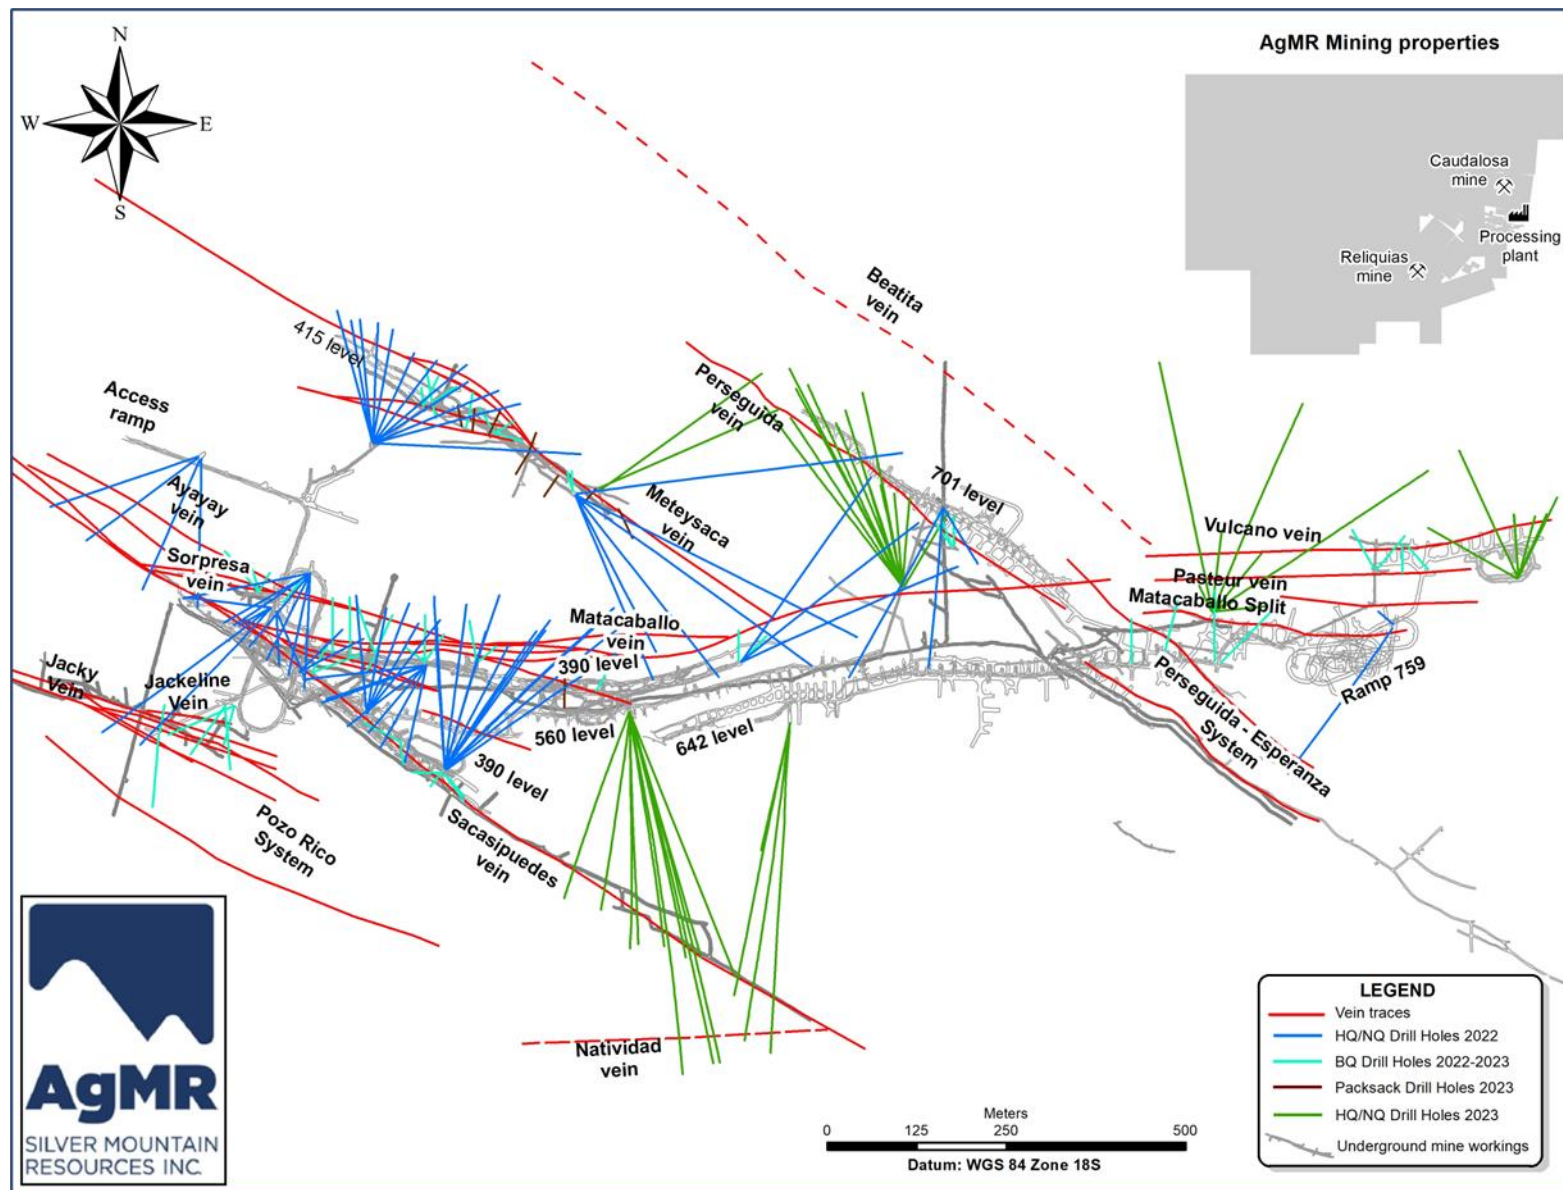

Source: Reliquias Mine Technical Report effective date March 18, 2023

Category	Mass	Grades						Contained Metal

Inferred	969	99.6	0.2	2.7	1.9	0.3	8.16	3.10	6.6	57.5	41.4	7.3	7.9

Notes:

- Mineral Resources are those defined in the definition of the CIM Standards on Mineral Resources and Mineral Reserves, 2014.
- Mineral Resources have an effective date of March 18, 2023. Antonio Cruz Bermúdez is the independent qualified person responsible for the Mineral Resources estimate.
- The Mineral Resources are not Mineral Reserves and do not have demonstrated economic viability.
- There is no certainty that all or part of the estimated Mineral Resources will be converted to Mineral Reserves.
- Mineral Resources are reported at US\$36.34 NSR cut-off for the polymetallic veins and the prices of the metals considered were Silver US\$23.29/oz, Copper US\$4.28/lb, Zinc US\$1.28/lb, and Lead US\$0.99/lb.
- Metallurgical recoveries for polymetallic veins are based on historical recovery: Ag= 73.00%, Pb= 83.00%, Zn= 71.00%, Cu= 85.00.
- The average density was calculated for all the veins and the average value used for the calculation of tonnage is 2.76 t/m³.
- Mineral Resource tonnes are rounded to the nearest thousand and totals may not add due to rounding.
- The reported Mineral Resources are not diluted.
- The Mineral Resources reported do not include mined-out areas.
- Antonio Cruz Bermudez is not aware of any environmental, permitting, legal, title, taxation, sociopolitical, marketing, or other relevant issues that could materially affect the potential development of the Mineral Resource Estimate.
- ¹ Silver equivalent (Ag_Eq) grades are calculated using metal prices of: silver US\$23.30/oz., gold US\$1764/oz, copper US\$9419/tm, lead US\$2188/tm and zinc US\$2813/tm. Silver equivalent grade is calculated as Ag_Eq (oz/t) = (Ag (oz/t) + (Au (g/t) * 2.40) + (Cu (%) * 2.70) + (Pb (%) * 0.80) + (Zn (%) * 0.80). Metal recoveries have not been applied in the silver equivalent value calculation

Stage 1 | Reliquias Underground Mine

Exploration Campaign 2023

- **18,532.15 m** – 106 DDH total (50 BQ, 11 Packsack and 45 HQ/NQ)
- **12,139.95 m underground Drilling HQ/NQ 2023** in 45 Drill Holes to test Sacasipuedes, Natividad, Perseguida, Vulcano, Pasteur.

About HQ/NQ campaign:

- Sacasipuedes vein drilled 5,978.95 m.
- Perseguida vein drilled 3,725.95 m.
- Vulcano vein drilled 2,256.20 m.
- Pasteur vein drilled 178.85 m.

Drilling Campaign 2022

- **17,273.95 m** – 76 DDH total (71 HQ/NQ and 5 BQ).
- 13 drill chambers completed
- Matabalho vein drilled over 650m strike and 130 m below Lv 340
- Sacasipuedes vein drilled over 480 m along strike, 160 m below Lv 290
- Metseysaca vein drilled up to 165 m below Lv 415, 425 m along strike
- Initial holes at Pozo Rico and Perseguida successfully completed
- Identification of significant intercepts in Ayayay and Sorpresa structures
- Pasteur, Vulcano, and Escondida veins require detailed exploration

Stage 1 | 2023 Drilling Campaign - Highlights

To be updated soon

Reliquias Resources update (kt)

Notes:

Metal recoveries have not been applied in the silver equivalent value calculation

Stage 1 | Mine Development and Rehabilitation

Fast-tracking the Reliquias Underground mine to production

Construction of UG Drilling Chambers

- 15 drilling chambers

Underground Mine Rehabilitation

- Rock scaling & support
- Underground ventilation
- Water pumping systems

Stage 1 | Mine Plan & Ventilation – In Progress

Stage 1 | Social Management

We are focused on obtaining land access agreements with the Salcca Santa Ana Communities, while we prepare their Development Plans to promote sustainable economic development. We aim to achieve alliances with local authorities to promote sustainable projects focused on local development that improve the quality of life of the surrounding populations.

Land Access Agreements

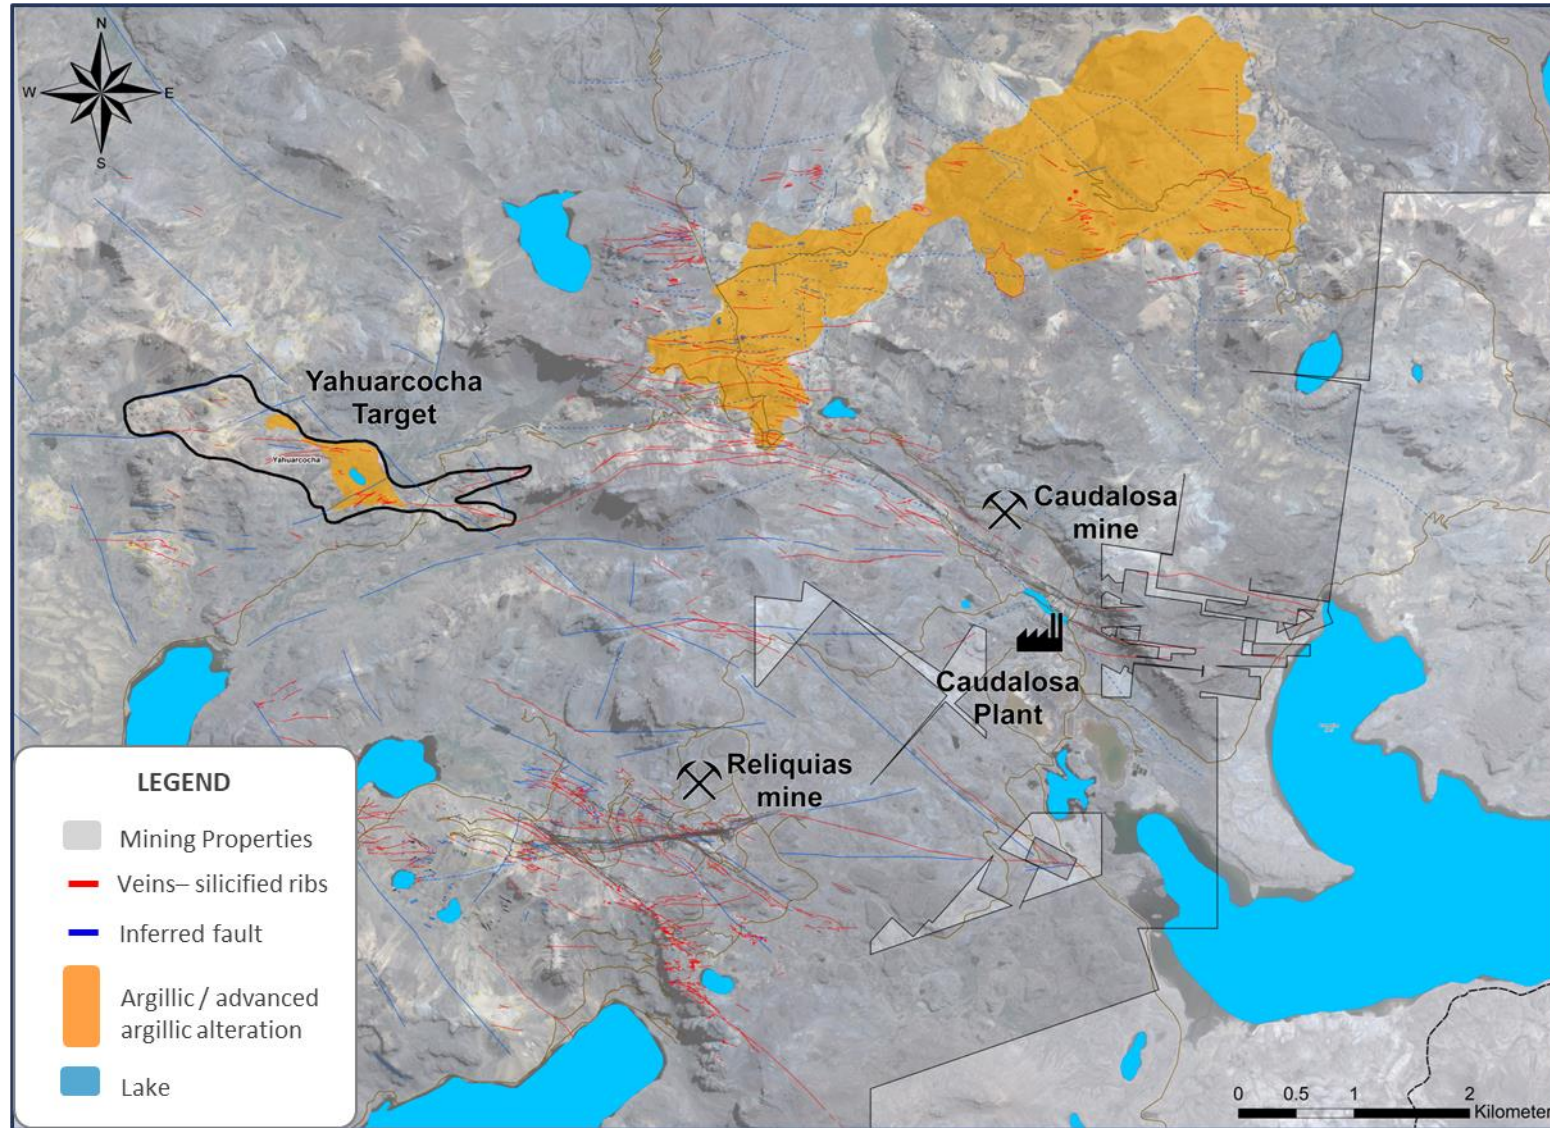

Meetings with local communities explaining the exploration results and compliance with previous agreements aimed at signing new surface rights agreement for exploration and mine development.

On December 2023, we signed Castrovirreyna agreement

Reliquias Block | Two stage development “Stage 2”

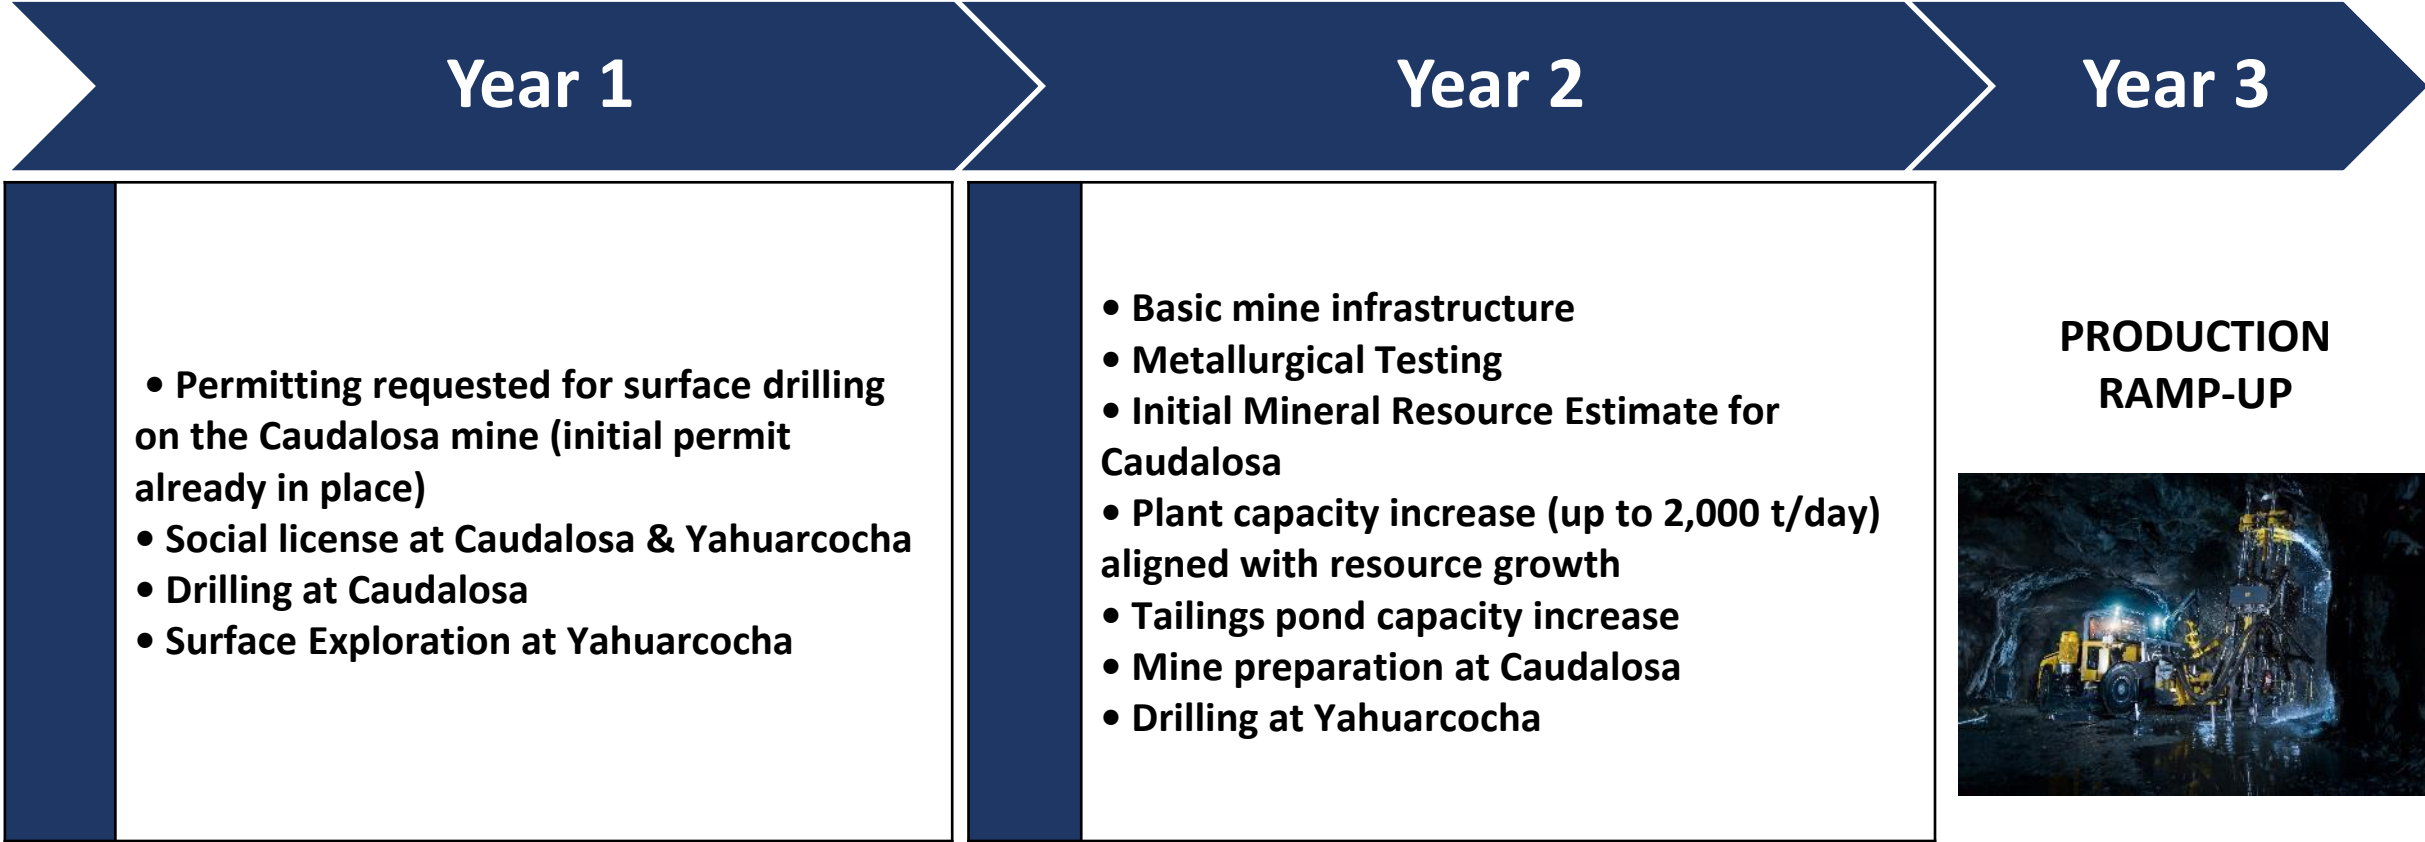

Caudalosa Mine

Yahuarcocha

Stage 2: Increase resource base and expand production.

Brownfield exploration, resource definition and recommissioning of the Caudalosa mine, further exploration at satellite targets.

Stage 2 | Caudalosa Mine and Yahuarcocha Timeline

Define | Increase | Convert Mineral Resources

AGMR will incorporate a strict ESG strategy into every facet of the development process, being mindful of both the environment and our surrounding communities

Stage 2 | Brownfield - Caudalosa Mine

Historical Mineral Resources Estimate

Source: Sociedad Minera Reliquias

Disclosure of Historical Estimates

Historical Resources Estimates are not Mineral Reserves or Resources and do not have demonstrated economic viability. All figures are rounded to reflect the relative accuracy of the estimates.

Information as of July 2019 Source: Sociedad Minera Reliquias SA, the information is based on RM-Master Pro Quality, C. Rodriguez, Abr19; RM-Master Pro Quality, C. Rodriguez, Jul19

The QP considers that the Historical Resources Estimate is relevant for the proper understanding of the Project and additional exploration including drilling could be needed to verify the historical estimate as current mineral resources

A qualified person has not done sufficient work to classify the historical estimate as current mineral resources or mineral reserves; and

The issuer is not treating the historical estimate as current mineral resources or mineral reserves

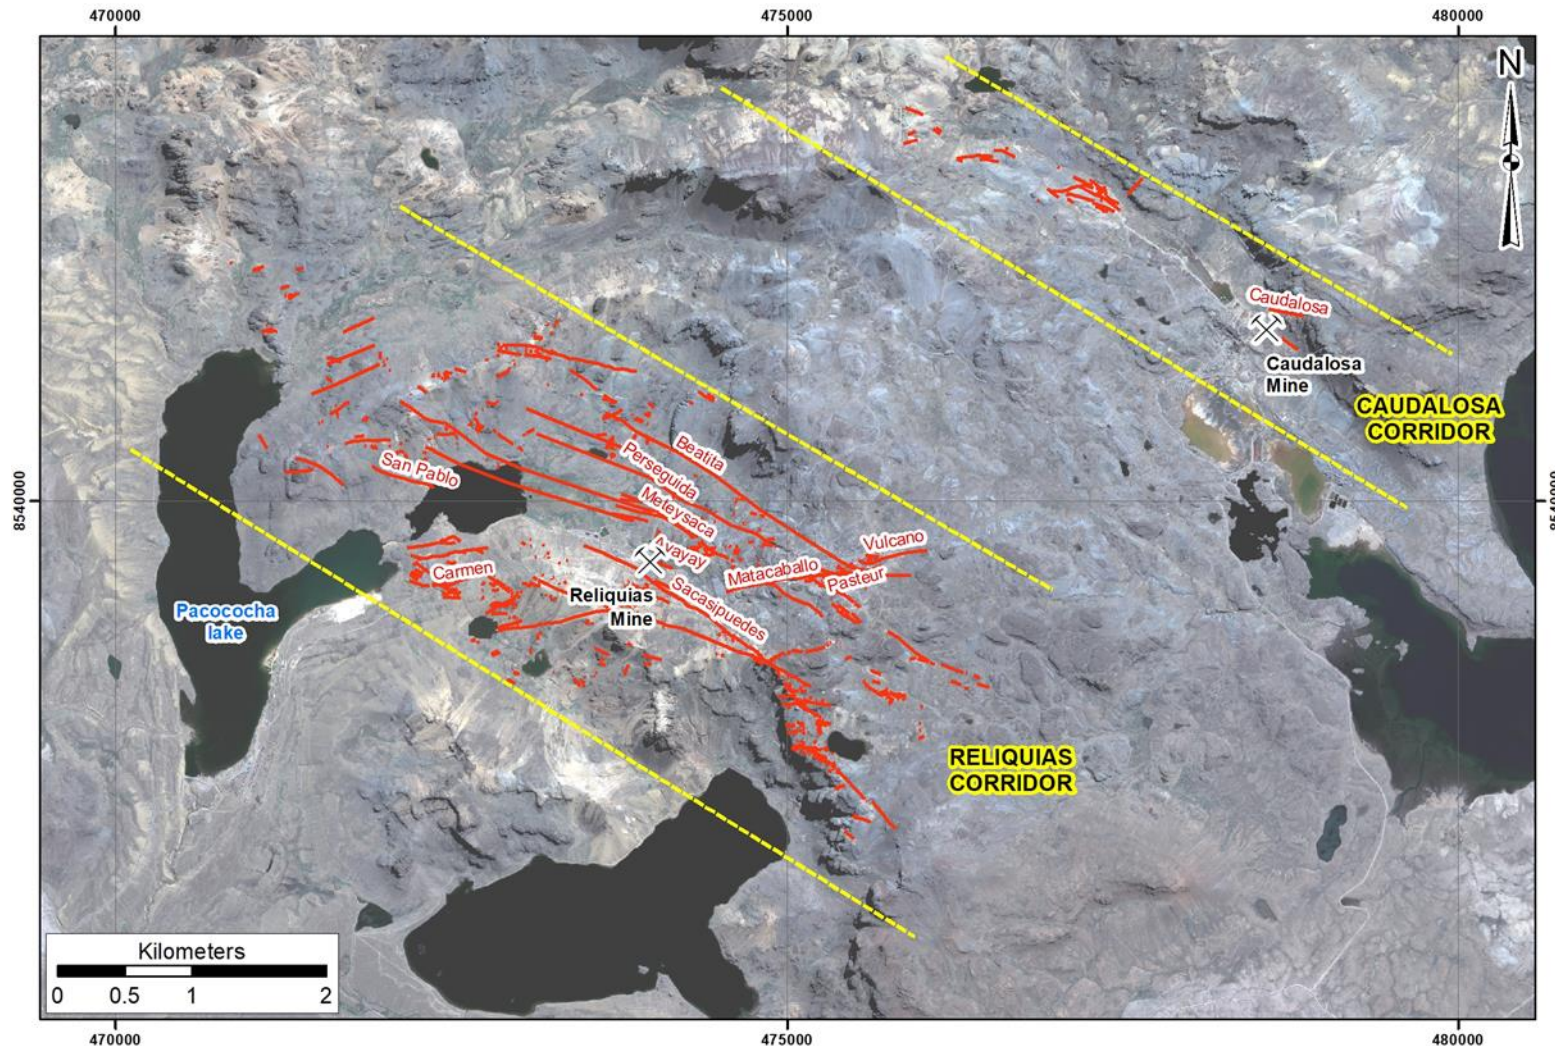

- ¹ Silver equivalent (Ag_Eq) grades are calculated using metal prices of: silver US\$23.30/oz., gold US\$1764/oz, copper US\$9419/tm, lead US\$2188/tm and zinc US\$2813/tm. Silver equivalent grade is calculated as $Ag_Eq (oz/t) = (Ag (oz/t) + (Cu (\%) * 2.70) + (Pb (\%) * 0.80) + (Zn (\%) * 0.80))$. Metal recoveries have not been applied in the silver equivalent value calculation

*Please see "Historical Resource Estimates"

Brownfields

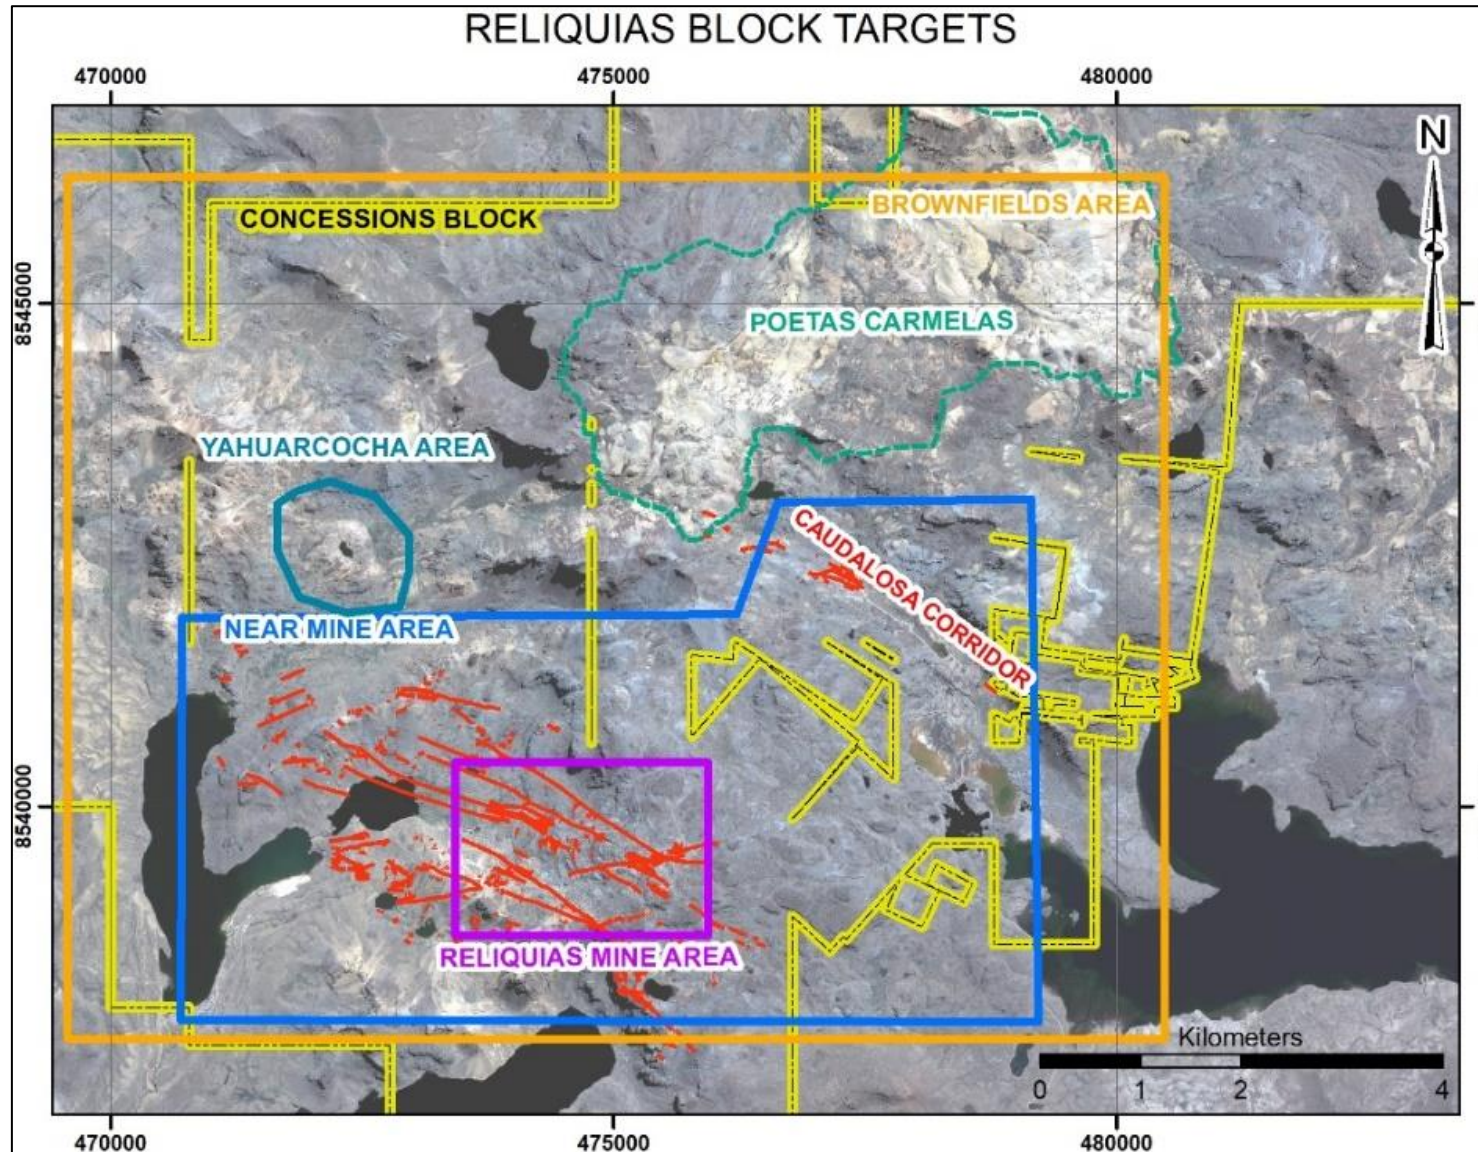

Stage 2 | Brownfields exploration – Multiple veins along two major corridors

RELIQUIAS MINE - CURRENT VEIN INTERPRETATION MAP

- Two parallel structural corridors identified
- Only a small portion of the Reliquias corridor has been drilled by SMR
- Several kilometres of outcropping veins within permitted area
- Excellent potential to increase resource base immediately adjacent to both Reliquias and Caudalosa sites

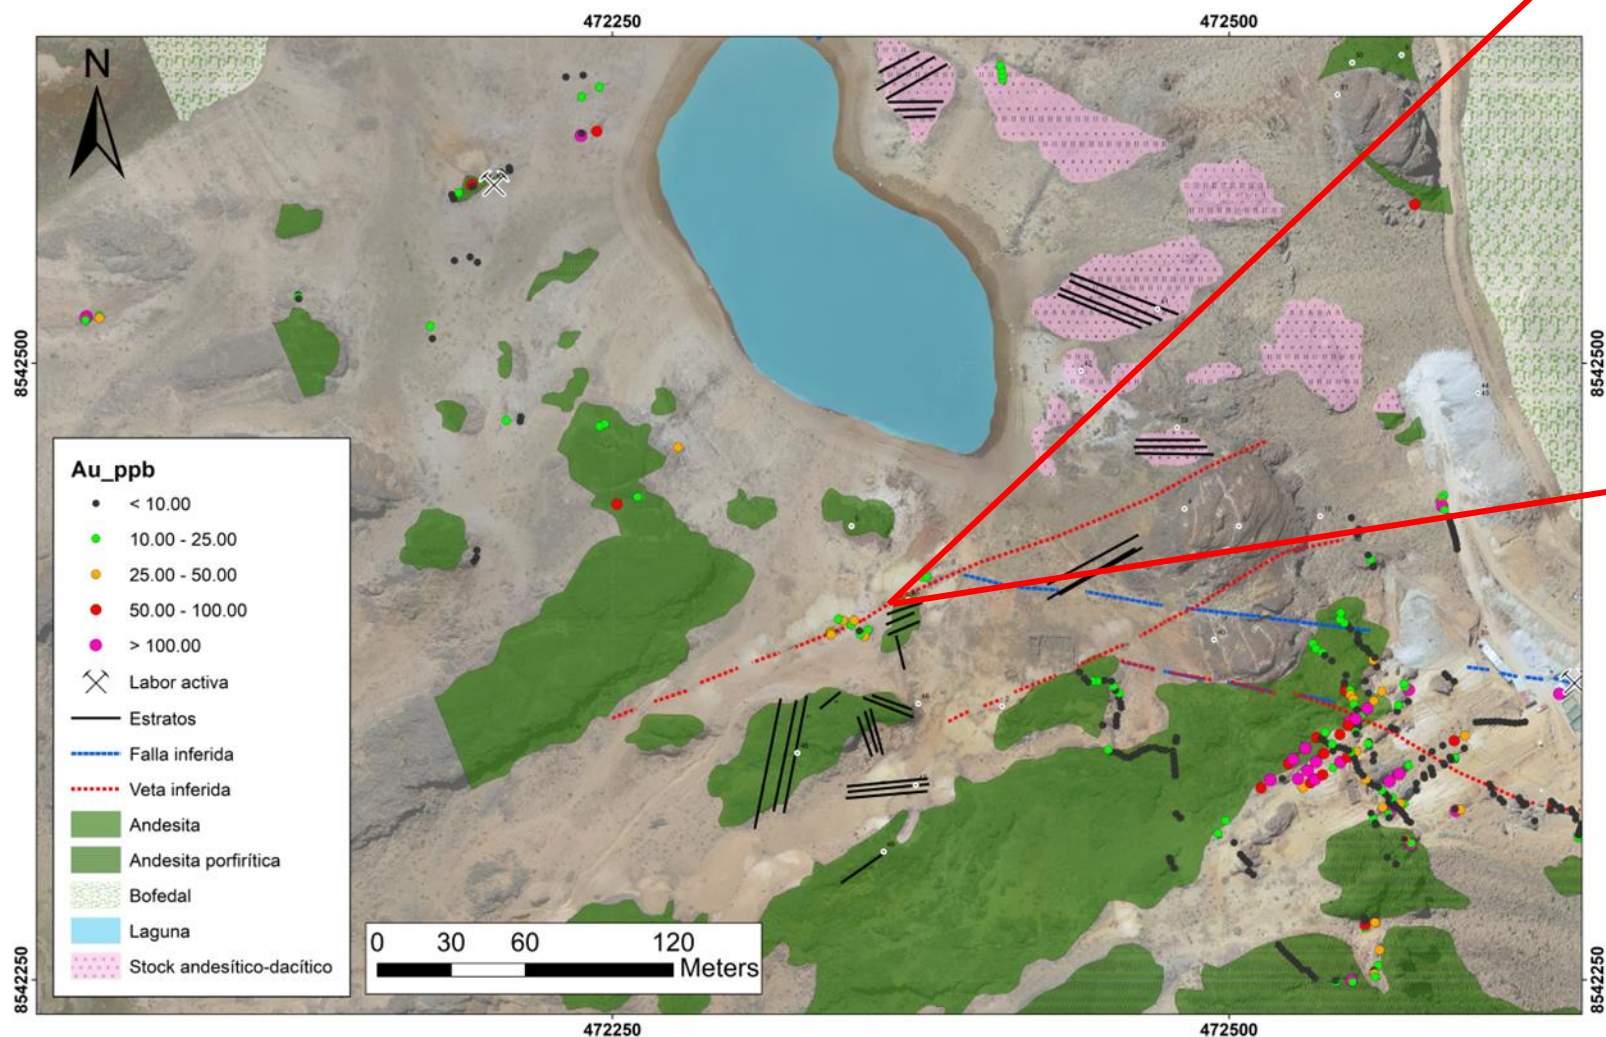

Stage 2 | Brownfields exploration – Yahuarcocha Au-Cu target

- One of many brownfields targets in the Reliquias block
- 5km northwest of the Reliquias mine area – excellent accessibility
- Epithermal breccia and intermediate sulfidation vein target
- Never been drilled in the past

Stage 2 | Yahuarcocha Target – High Grade Veins

YAHUARCOCHA AREA - AU PPB GEOCHEM MAP

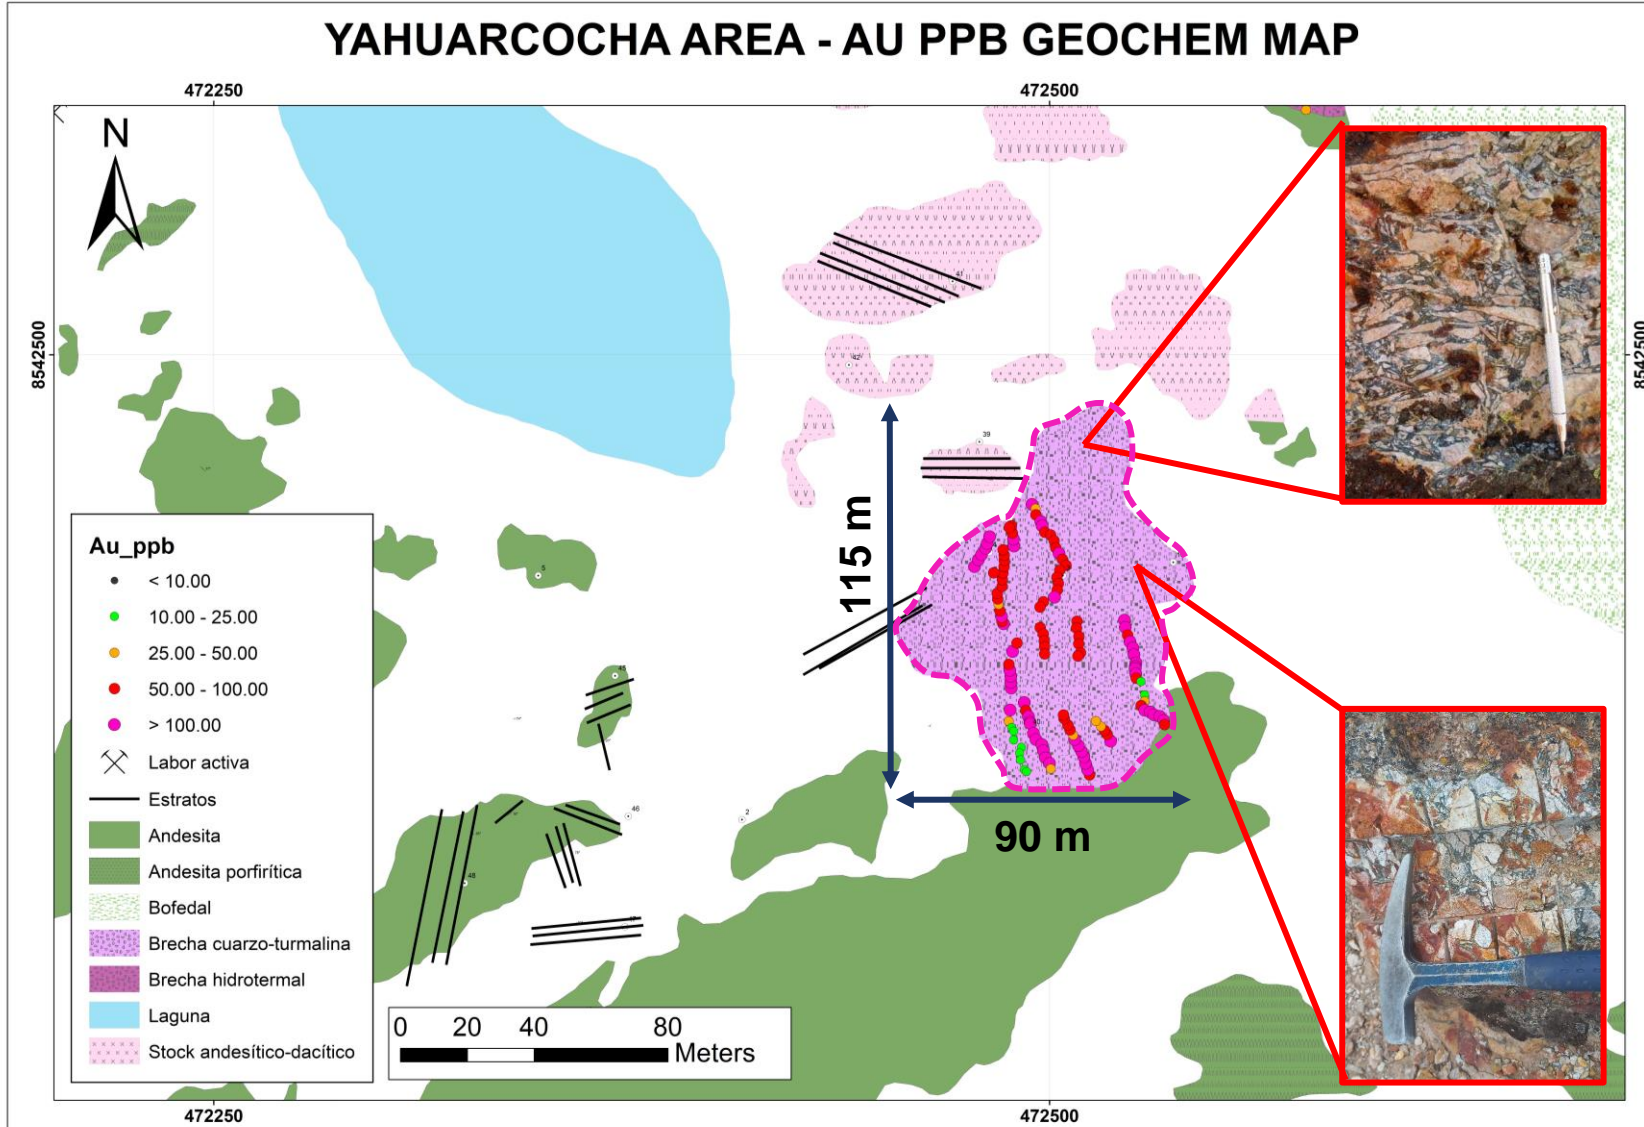

- Multiple old workings on intermediate sulfidation Au-Ag mineralized veins.
- Salicified structures at the edges of the breccia, with NE-SW, E-W and NW-SE orientation.
- Good road access from Reliquias and Caudalosa sites.

Projects & Prospects

Projects & Prospects | Yahuarcocha Target – Hydrothermal breccias

YAHUARCOCHA AREA - AU PPB GEOCHEM MAP

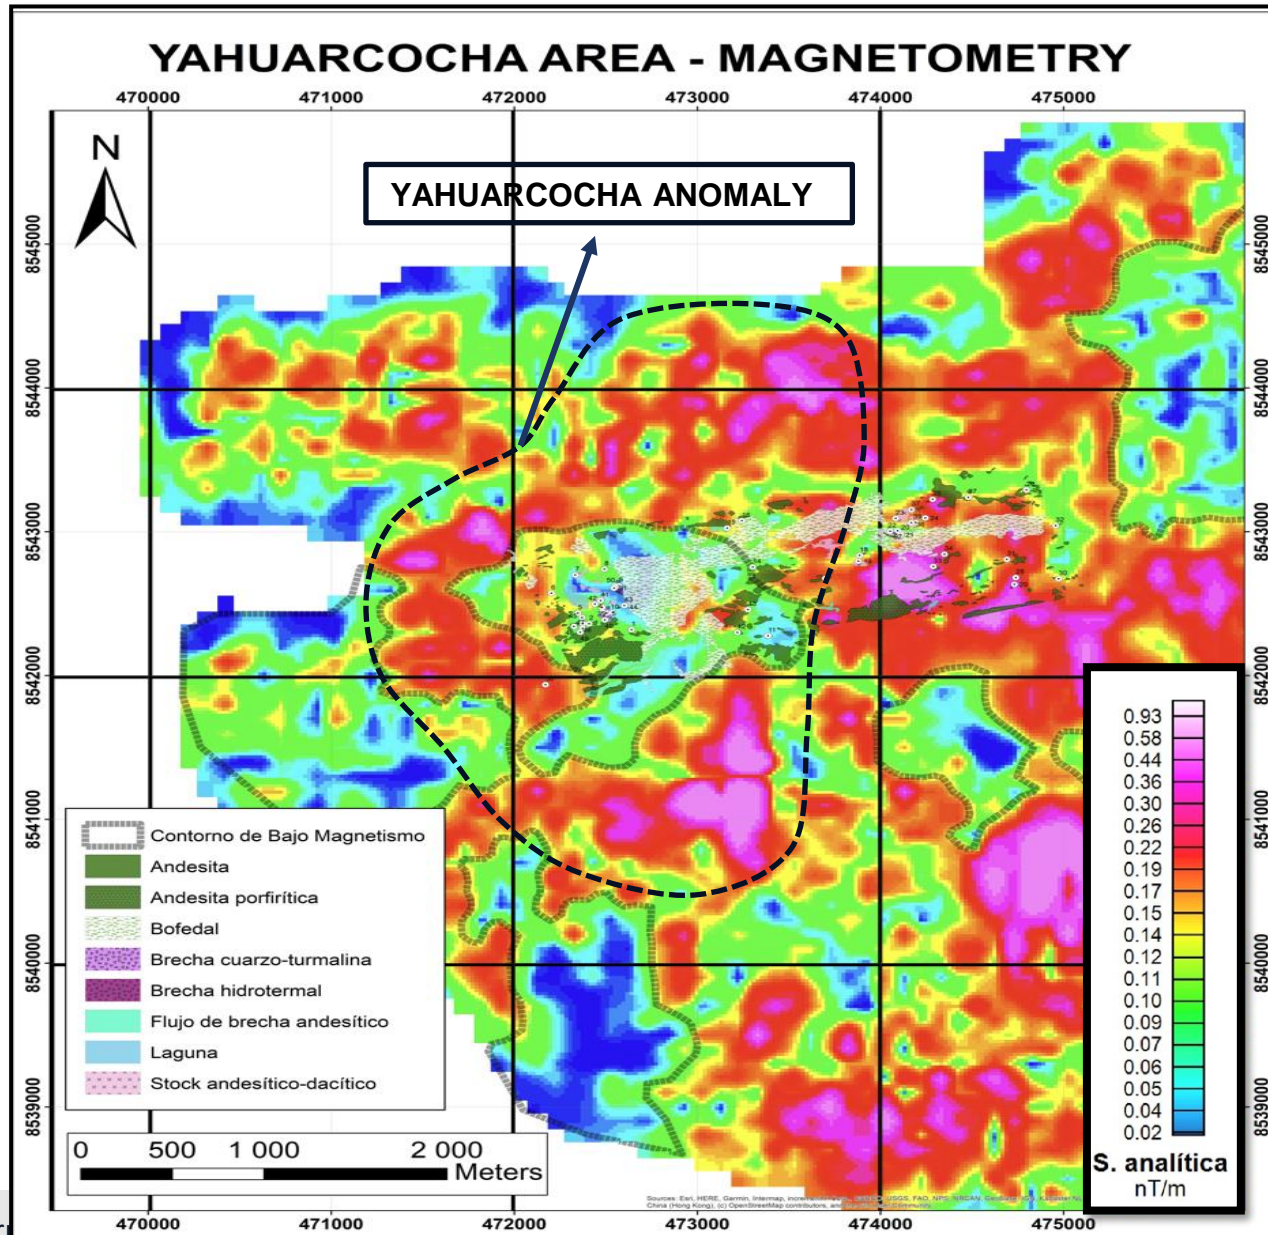

- In the altered zone of Yahuarcocha it presents a semicircular area of 1.1 km by 0.8 km due to the premineral, intra and post mineral intrusions that have intruded into the volcanic sequences of the Tertiary Caudalosa formation.
- Large hydrothermal quartz-sulfide-tourmaline breccia with consistent anomalous gold values on Surface.
- Presence of pyrophyllite (which indicates a hydrothermal environment of higher temperature).
- Possible presence of porphyry close to depth.
- The mineralization potential is located in the South-East sector of the Yahuarcocha lagoon in an area of 115 x 90m, concentrated in the silicified breccia zones that would represent the main mineralization of Ag-Au.

BLOCK	TONNES
Brecha	1,402,425.00

Highlights:

- #Sample 12594: 3.8m @ 2.62 g/t Au & 159 g/t Ag.
- #Sample 12595: 4.4m @ 2.11 g/t Au & 107 g/t Ag.
- #Sample 15587: 4.0m @ 1.35 g/t Au & 112 g/t Ag.
- #Sample 15585: 1.2m @ 0.88 g/t Au & 93.6 g/t Ag.
- #Sample 12591: 3.9m @ 0.85 g/t Au & 40.3 g/t Ag.
- #Sample 15584: 4.3m @ 0.70 g/t Au & 36.6 g/t Ag.
- #Sample 15599: 2.5m @ 0.66 g/t Au & 61 g/t Ag.
- #Sample 15586: 2.3m @ 0.57 g/t Au & 25.1 g/t Ag.

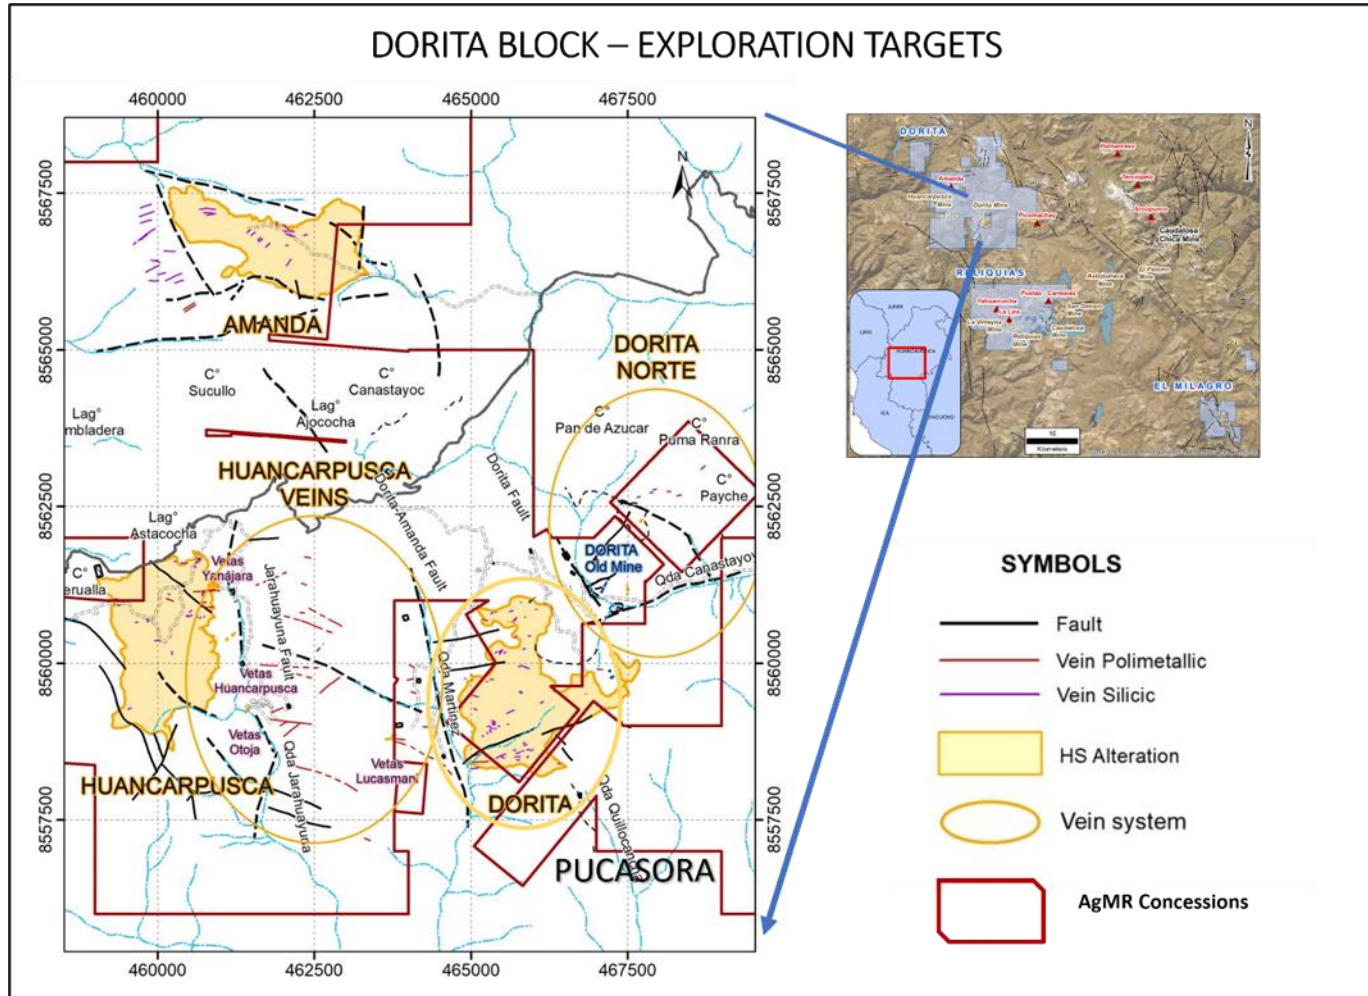

Projects & Prospects | Yahuarcocha Target – Hydrothermal breccias

- The area presents alteration of high-sulfidation epithermal type partially eroded, with minerals of pyrophyllite, diaspore, dickite, muscovite (sericite), kaolinite, illite and tourmaline that demarcate zones of silicification with porous, granular and massive textures, zones of advanced argilization and argilization towards the edges, it presents strong structural control in the NW-SE, ENE and NE-SW directions and lithological control of the tuffs as rocks that are more receptive to mineralizing solutions.
- The mineralization potential is located in the East and South-East sectors of the Yahuarcocha lagoon in an area of 500 x 200 m, concentrated in the silicified breccia zones that would represent the main Ag-Au mineralization.

“One or more porphyry centres are believed to be present in the district, most likely at depths of 300 m, or appreciably more, beneath the lithocap. However, size and metal contents cannot be predicted.” Richard Sillitoe _ Press Release Feb2023

Projects & Prospects | Dorita Block

Pucasora

- 2.5 km x 1.5 km advanced argillic alteration zone with a prominent magnetic low
- Alteration typical of high sulphidation epithermal deposits, with extensive zones of alunite, pyrophyllite and dickite alteration with localized vuggy silica zones around dacitic porphyry stocks
- Several mineralized veins and silicified ribs

Huancarpusca

- Silicified and locally brecciated ribs with Au-Ag-Pb-Zn mineralization, hosted in andesitic lava flows and dacitic domes.
- Significant argillic alteration along 1.8 km corridor
- Main mineralized structures outcrop over strike lengths of hundreds of meters with elevated gold grades

Projects & Prospects | Dorita Block

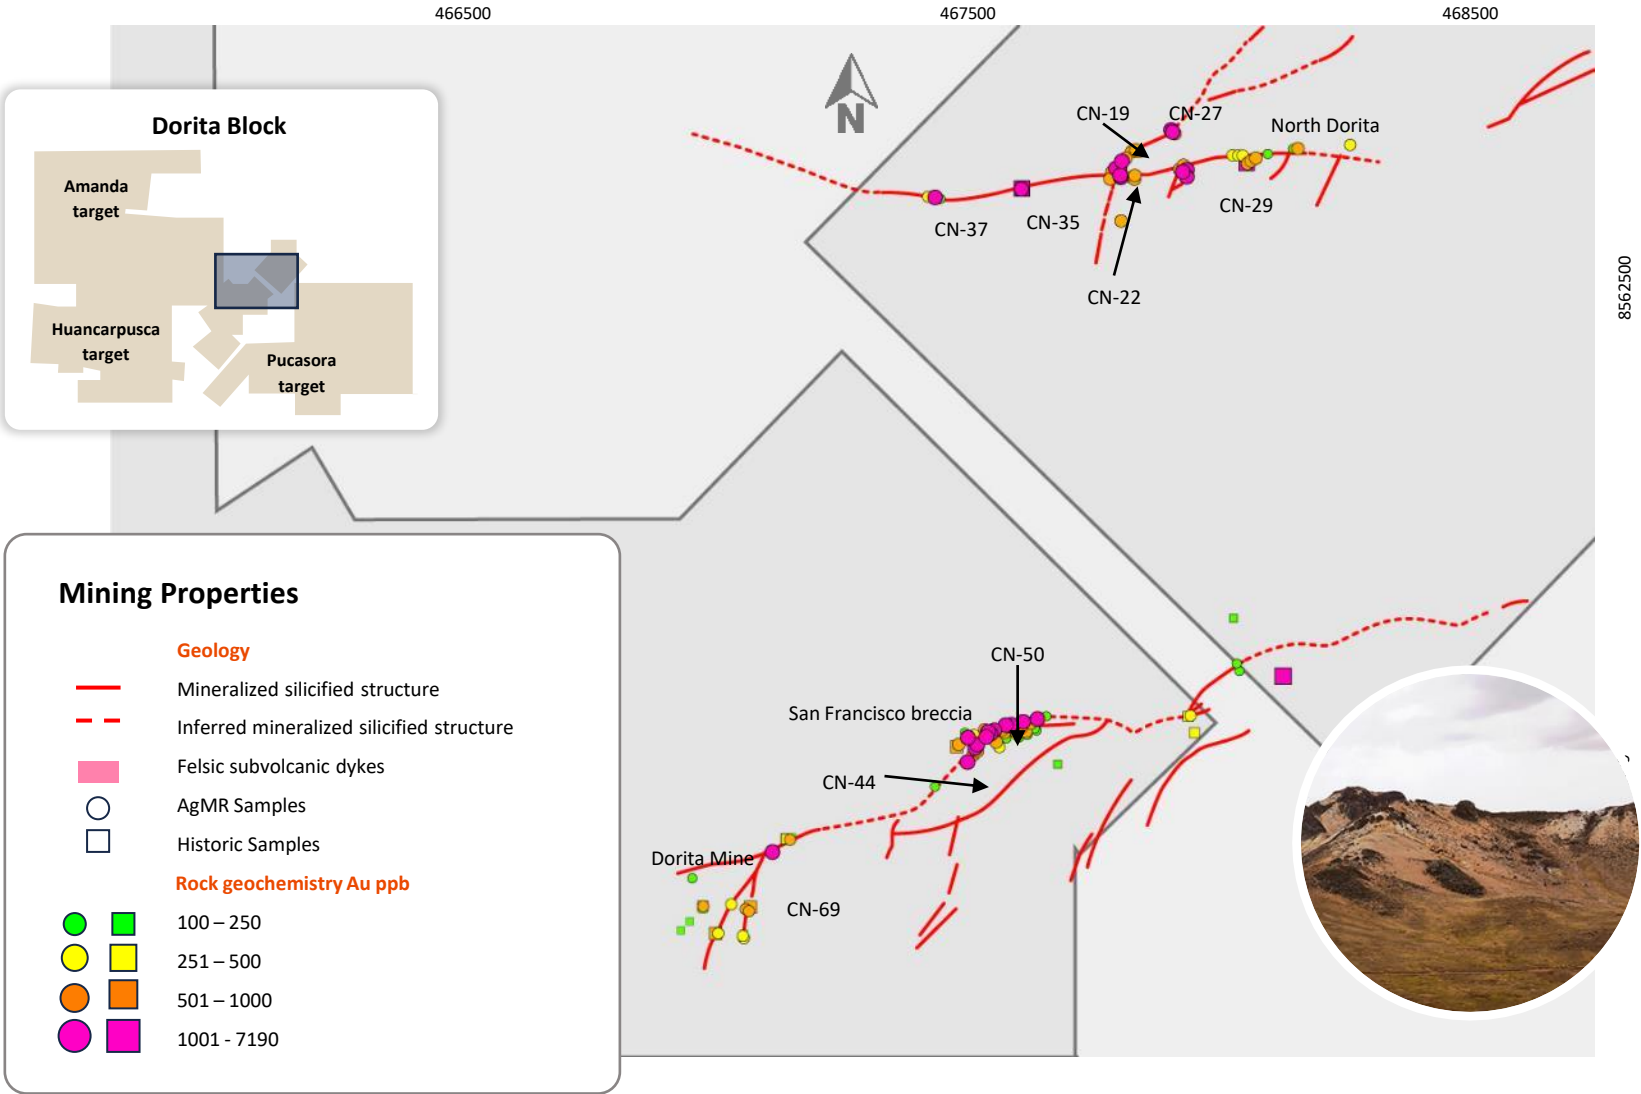

Surface channel sampling of Dorita and Dorita North vein structures

Map shows rock geochemistry – gold values

Highlights / selected channels:

- CN 27: 5.46 m @ 1.49 g/t Au & 17.61 g/t Ag
- CN 29: 6.96 m @ 1.05 g/t Au & 10.60 g/t Ag
- CN 44: 5.01 m @ 2.20 g/t Au & 36.22 g/t Ag
- CN 50: 5.76 m @ 1.60 g/t Au & 17.13 g/t Ag
- CN 69: 2.83 m @ 1.95 g/t Au & 64.49 g/t Ag

For additional information, please refer to the Company’s press releases dated July 7th, 2022

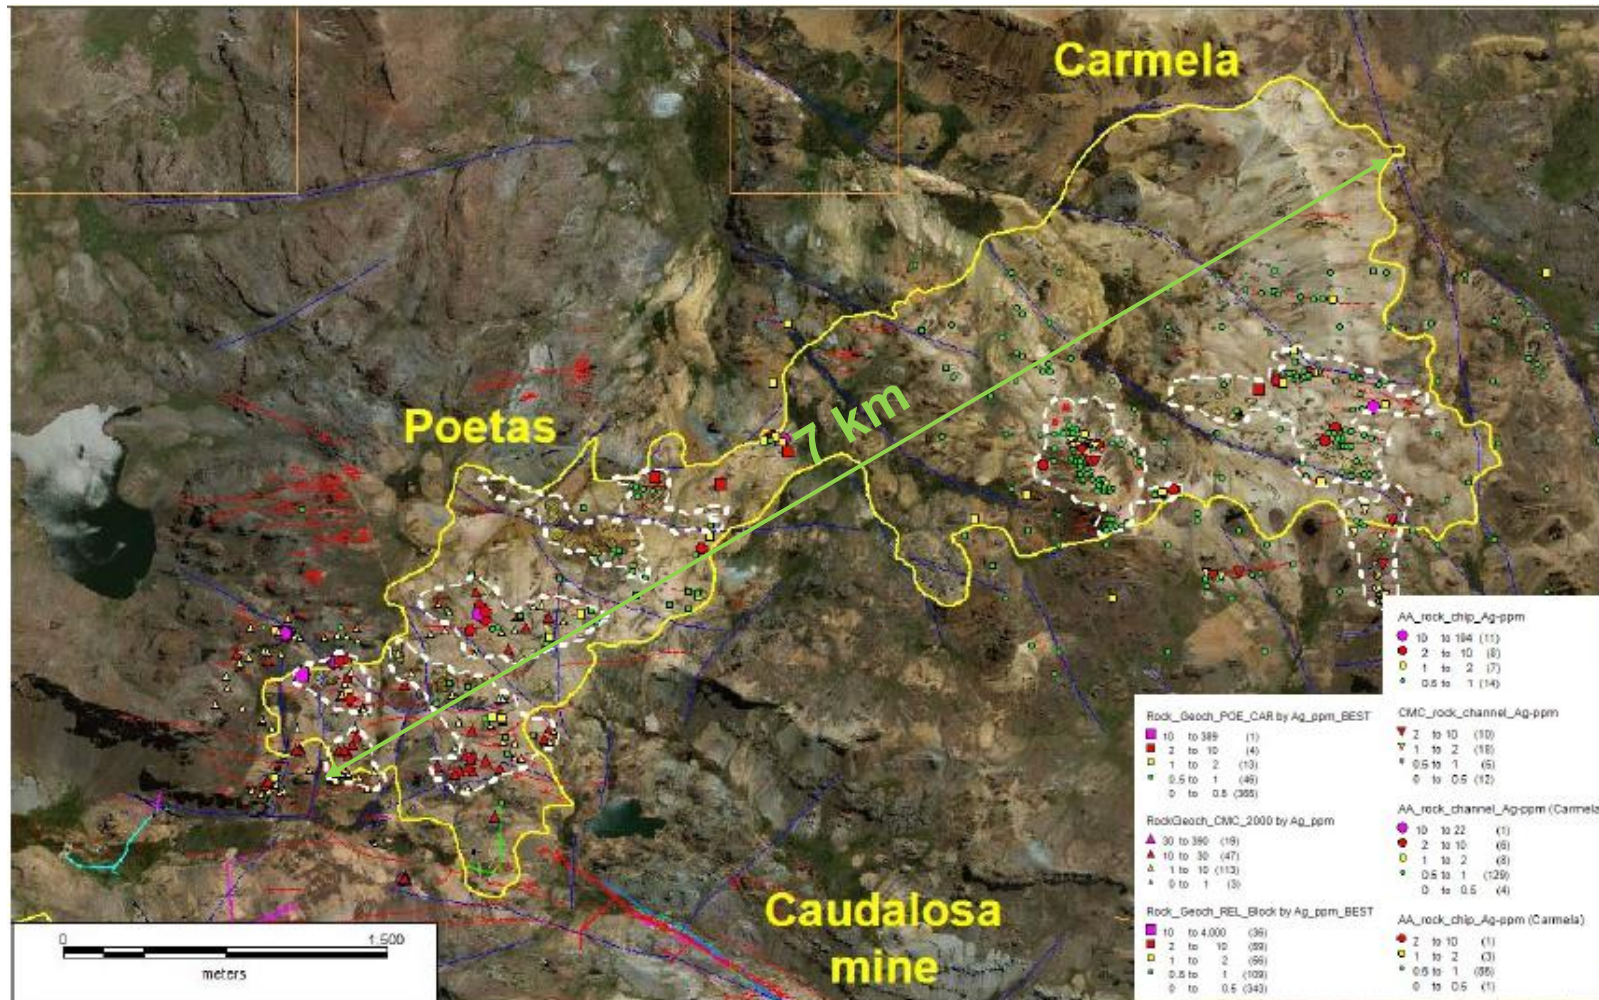

Projects & Prospects | Poetas Carmela

- Large colour anomaly immediately north of Caudalosa Mine
- Advanced argillic alteration over 5 km strike length
- Vuggy silica ribs with silver mineralization
- Large ground magnetics and IP anomalies
- Never been drilled in the past

Projects & Prospects | Poetas Carmela

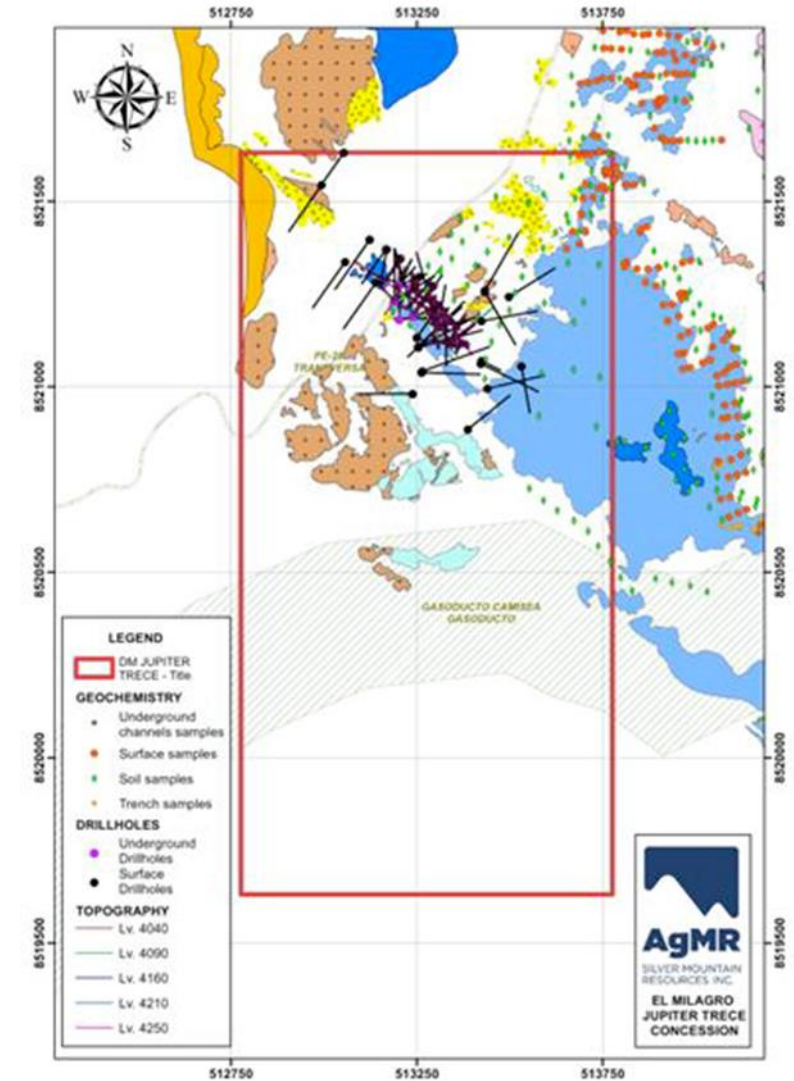

Projects & Prospects | El Milagro

NI 43-101 Historical Resource Estimate – Inferred for El Milagro Project¹
